Strong Pipe volume growth, momentum to continue:

Pipe volume growth: Pipe revenues for the quarter stood at Rs. 6.8bn, up 10% YoY. Volume growth at 12% YoY was marginally better than peers on gaining market share from unorganized players and its strategy of higher discount in agri pipes. Realization growth at -2% YoY which again was due to its strategy to give higher discount in Agri pipes. PVC resin revenue declined by 7% YoY at Rs. 5.2bn and came 6% with volume declining 6% YoY stood at 72KT for the quarter. Overall revenues for 4QFY18 at Rs 8.01bn was 9% down YoY. For full year FY18, pipe volume at 250KT grew 20.4% and was better than peers.

Strong growth in PVC margins: PVC EBIT at Rs 1.3bn grew 10% YoY despite 6% YoY decline in volumes due to strong inventory gains. PVC Pipe EBIT at Rs 618mn, grew 5% YoY. Pipe EBITM declined 50bps YoY at 9% while PVC margins at 24.5% grew ~400bps YoY. Reported EBITDA at Rs. 1.9bn grew 5% YoY with margins at 23.2% Vs 20.1% last year led by gross margins expansion from 33% last year to 41% this quarter due to better PVC-EDC spreads.

PAT was largely flat YoY: Strong EBITDA growth coupled with lower than expected interest costs and lower than expected other income led to PAT at Rs 1.2bn, -2% YoY.

Focus on non-agri pipe segment: CPVC volume increased 42% YoY in FY18 to 5,800 MT and revenue increased to Rs 1.5 bn (Rs 1.1 bn in FY17). Finloex intends to leverage on Lubrizol's CPVC resin capabilities and expand aggressively into CPVC segment by launching several new SKUs. It plans to augment its distribution reach for non-agri pipes by setting up parallel dealerships as well leveraging existing dealer relations. The company is aggressively focusing on CPVC market by extending credit to CPVC dealers. Over next 4-5 years, Finloex intends to derive ~50% of its pipes revenue from non-agri segment (currently 20% of pipes revenue)

Outlook & Valuation: Finloex being the market leader in Agri pipes and focus on improving market share. We believe with 1)government initiative & increased spending on irrigation, water supply, focus on doubling farmer income 2)affordable housing and 3) shift to organised players led by brand awareness, strong distribution network. We maintain Buy rating on the stock due to its market leading presence in PVC pipes segment, high margins profile, on par cash flow/balance sheet/return ratio profile. At CMP, stock trades at 24x FY19E and 20x FY20E EPS Vs 30x for peers. We value the stock at 23x FY20 EPS with a TP of Rs 731
